

Considering an application of

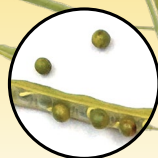

# PRE-HARVEST GLYPHOSATE?

Applying pre-harvest glyphosate too early can leave unacceptable product residues and put the marketability of your crop at risk.

# WAIT...

UNTIL YOUR CROP IS LESS THAN 30% GRAIN MOISTURE IN THE LEAST MATURE AREA OF THE FIELD.

Check out the canola staging guide at [keepingitclean.ca/glyphosate](http://keepingitclean.ca/glyphosate)

For more information contact your local Canola Council agronomy specialist or call (866) 834-4378.
